

NEUROBIOLOGY/ANIMAL PHYSIOLOGY

The Department of Biology at Swarthmore College invites applications for a full-time 2-year visiting faculty position at the assistant professor level, beginning September 2017. Teaching responsibilities for the first year include an intermediate-level neurobiology course with weekly laboratories and an advanced seminar with weekly laboratories in an area of neuroscience. In the second year, teaching responsibilities include an intermediate level course in animal physiology with weekly laboratories, and participation in the department's team-taught introductory course in organismal and population biology. Funds are available for travel to professional meetings and for summer support of undergraduate research collaborators. Applicants should have a Ph.D., teaching experience, and a strong commitment to teaching undergraduates from diverse backgrounds. Submit a CV, statements of teaching and research interests, and three letters of recommendation through [AcademicJobsOnline](#) by February 19, 2017. Review of applications will begin on February 20, 2017. Questions regarding this position should be addressed to the search chair, Kathleen Siwicki, at ksiwick1@swarthmore.edu.

Located in the immediate suburbs of Philadelphia and just 20 miles from Wilmington DE, Swarthmore College is a highly selective liberal arts college whose mission combines academic rigor with social responsibility. Swarthmore has a strong institutional commitment to diversity, and actively seeks and welcomes applications from candidates with exceptional qualifications, particularly those with demonstrable commitments to a more inclusive society and world. Applicants from traditionally underrepresented groups are strongly encouraged to apply. For more information on Faculty Diversity and Excellence at Swarthmore, see <http://www.swarthmore.edu/faculty-diversity-excellence/information-candidates-new-faculty>.
